

# More Than Hearing Worksheet

Episode: C Ordinary 25x2016

Text: 1 Timothy 2:1-7

First of all, then, I urge that supplications, prayers, intercessions, and thanksgivings be made for everyone, 2 for kings and all who are in high positions, so that we may lead a quiet and peaceable life in all godliness and dignity. 3 This is right and is acceptable in the sight of God our Savior, 4 who desires everyone to be saved and to come to the knowledge of the truth. 5 For

there is one God;

there is also one mediator between God and humankind,  
Christ Jesus, himself human,  
6 who gave himself a ransom for all

—this was attested at the right time. 7 For this I was appointed a herald and an apostle (I am telling the truth, I am not lying), a teacher of the Gentiles in faith and truth.

Word - Verbal/Linguistic	<p>Vs. 2 “for kings and all who.....”</p> <p>For the context of 1st century, this is pretty radical. The Emperor was considered divine, after all and people ought to be praying “TO” kings et al.</p> <p>The Emperor Cult gradually developed in the whole Roman Empire as a unifying and politically stabilizing force.</p> <p>Christian Eberhart WP</p>	<p>(borrowing from Jimmy Jack Roberts a bit here)</p> <p>Take the words of the doxology and substitute the name of a king or president or pop star for God. Hear how jarring that is. This would not be unusual for people living under Roman rule in that era - Caesar was to be praised.</p>

When we encounter brothers and sisters from other cultures, we need to be aware of placing our own expectations and experiences on their shoulders as well as receiving the same back from them.</p>	<p>Lay a strip of masking tape along the floor and ask for a volunteer to come up and walk along it. Try some challenges; walking heel to toe, walking with head up (not looking down), walking with eyes closed. Ask about the difficulty of these options.</p> <p>THEN, put a yoke with buckets hanging from each end on the volunteer's back and place an amount of water or sand in one of the buckets and say as you are doing it that this is the weight of someone else's expectation of how you are to walk the line. Ask them to walk the line. Then place more weight in the same bucket. Keep the buckets unbalanced.</p> <p>Intriguing questions: At</p>
